

Interested in teaching biology?  
Eager to continue participating in favorite lab classes?

Check out these new IB courses:

**IB 192**

**Applied Pedagogy in Integrative Biology**

2-3 units, P/NP

Gain experience and confidence implementing pedagogical practices introduced in IB 193.

Develop skills important to teaching upper division lab courses.  
Partner with a GSI to engage in mentored classroom experiences.

Students must enroll in IB 193 the first time that they participate in IB 192.

**IB 193**

**Practical Pedagogy: Becoming an Effective Instructor in Biology**

1 unit, P/NP

Learn critical pedagogical practices for teaching biology lab courses.

This seminar-format course provides the conceptual framework for participating in IB 192.

Students must enroll in 193 the first time that they participate in IB 192.
